

**Company Name:** Cantier Systems Pte Ltd

**Website:** <https://www.cantier.com/>

**Address 1:** One Raffles Place, Tower 2, 1 Raffles Place, Level 20, Singapore 048616

**Contact:**

Prabakar P. Selvam - Founder & CEO: +65 92479147

Ravisankar - Chief Marketing & Innovation Officer and Director: +91 9281057100

**About**

Founded in 2010 with Head Office in Singapore, our Vision is to be a Trusted Partner and one of the True Leaders in providing Manufacturing Execution Solutions to enable Smart Manufacturing/Industry 4.0 practices in every market that we serve.

Cantier MES 4.0 is the AI-Powered, Next Generation, Manufacturing Execution System (MES) that integrates seamlessly with legacy and modern manufacturing environments, combining Execution, IIOT, and Manufacturing Intelligence capabilities into a single platform for Real-time operations visibility, predictive decision support and autonomous actions.

Our solutions have shown significant improvements in manufacturing Shop-floor Traceability, Visibility, Quality, and Overall Equipment Effectiveness (OEE) leading to Real-time flow of accurate information towards Data-driven decisions.

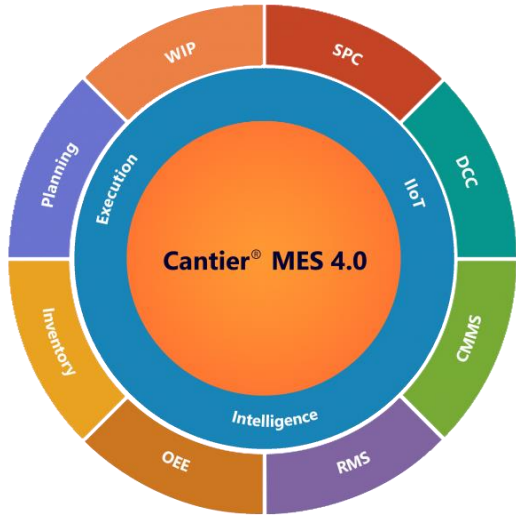

Cantier Manufacturing Intelligence built with Machine learning predicts equipment downtime, parts failure, and potential quality issues, unlocking the contextual data from the shop floor equipment and devices to deliver significant business value to our customers.

Cantier MES 4.0 has been crafted by a highly motivated Global Team having strong hands-on expertise in Factory Operations, Industrial Automation/Operations Technology and Cutting Edge IT & AI solution platform & product development practices across multiple manufacturing industry domains.

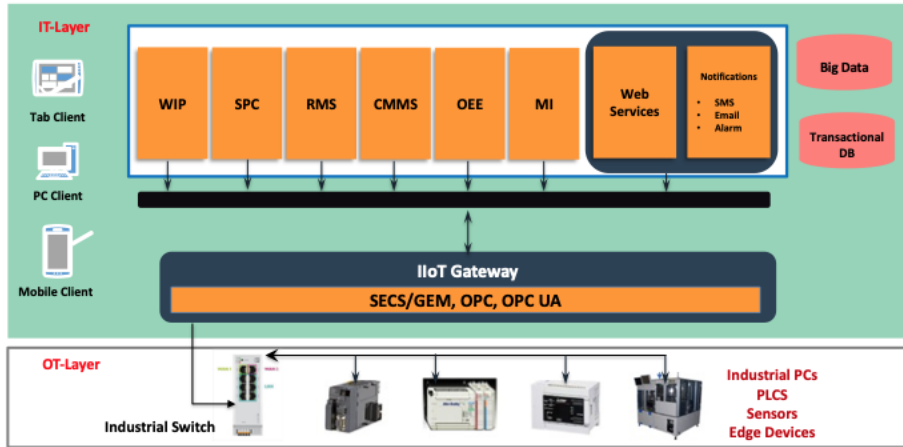

We are continuously working with leading players in semiconductor, electronics, automotive, aerospace, metal precision and fabrication, food, sugar and ethanol industries.

You can rely on our relentless customer focus to Start Small & Scale As you Wish. Experience Industry specific, Modular and Configurable MES 4.0 solutions that achieve Rapid ROI.

## Products

## IIoT Integration Architecture

## Prominent technologies used/offered

- Microsoft.net Framework , SQL Server Database
- Power BI
- PTC - Kepware
- Inductive Automation – Ignition
- Litmus

## Focussed areas/sectors

- Semiconductor & Electronics

- Automotive
- Aerospace
- Metal Precision & Fabrication
- Food & Beverages
- Sugar & Ethanol

#### **Five major companies worked with**

- Littelfuse
- Allegro
- MRF
- Texas Instrument
- Sohbi Kogei

#### **Product Brochure**
