About

Flexspeed Technology, your preferred CNC machine tools and Smart Factory Solutions partner. Flexspeed is a specialized machine tools manufacturer and distributor of CNC machine tools, offering state of the art technology for the precision engineering industry. Flexspeed is also a solutions provider for vertical warehousing management, manufacturing iSMART ERP software and robotics system integrator providing robotics automation solutions for CNC machine tending applications as well as customized solutions for customers' specific automation requirements across a range of industries. Combined with IIOT machine monitoring and data analytics software, Flexspeed's solutions allows our customer access to overall machine data at their fingertips. This allows managers and operators to adjust machines production as needed across the production to increase efficiency.
